

BYOD MEETING ROOM SOLUTIONS FOR SMALL BUSINESS OFFICES

USB VIDEO BAR POWERED BY AI

USB video bars from Poly are the go-to devices for people wanting a cost effective, simple to install and easy to use meeting room solution. The simplicity to set up and ease-of-use solution for small businesses enables participants to swiftly engage in crucial calls, focusing on meaningful and productive conversations, without making experiences complex or frustrating. Poly USB video bar powered with AI capabilities, delivers enterprise-grade audio and video quality across different room sizes.

POLY AI VIDEO TECHNOLOGY

Poly DirectorAI suite of AI technology provides endusers with an automatic camera experience during meetings. Features include:

- Group and Speaker Framing
- Presenter Tracking

POLY AI AUDIO TECHNOLOGY

Exceptional audio experience for both in-room and far-end participants with Poly's proprietary:

- Poly Acoustic Clarity
- NoiseBlockAI
- Acoustic Fence technology
